*TODOS: Mathematics for ALL
Excellence and Equity in Mathematics*

TODOS Mission

Mathematics for ALL is to advocate for equity and high quality mathematics education for all students— in particular, Latina/o students.

Five goals define the activities and products of TODOS: Mathematics for ALL:

- 1. To advance educators' knowledge and ability that lead to implementing an equitable, rigorous, and coherent mathematics program that incorporates the role language and culture play in teaching and learning mathematics.*
- 2. To develop and support educational leaders who continue to carry out the mission of TODOS.*
- 3. To generate and disseminate knowledge about equitable and high quality mathematics education.*
- 4. To inform the public and influence educational policies in ways that enable students to become mathematically proficient in order to enhance college and career readiness.*
- 5. To inform families about educational policies and learning strategies that will enable their children to become mathematically proficient.*

NMCTM Mission

The purpose of NMCTM shall be the advancement, encouragement, extension, improvement, and coordination of mathematics teaching at all educational levels in all membership regions of the state of New Mexico.

NMCTM & TODOS

NMCTM and TODOS both help students to better perform in math education. We are further building an affiliation between the two organizations. This affiliation promotes rigorous mathematics standards together with equitable math education for ALL.

NMCTM & TODOS - Mathematics for All

TODOS and NMCTM partnered at the 2016 NM STEM Symposium this past summer. Rocio Benedicto, Treasurer TODOS, and Tori Gilpin, Past President, NMCTM, teamed up to present a training on mathematics rigor and equitable instruction for ALL. The training was a success and educators have asked for more. The NMCTM & TODOS are therefore proud to offer a double workshop at this fall's Soar to Greater Heights annual STEM Conference.

Details of the Scholarship

- Begin your application for the scholarship at nmctm.org/scholarships
- If you have questions, email: nmctm@nmctm.org

Registration

Also need to register for the conference? Registration and more information are available online at nmctm.org/registration.

How is this scholarship funded?

This scholarship is managed and funded by the NM Council of Teachers of Mathematics. One of our charges it to improve mathematics instruction across the State, and it is our hope that in incentivizing this professional development opportunity, that we can help achieve that end. Additionally, this particular workshop is unique in that it not only promotes rigorous mathematics instruction, but that it is based on the principle of *equitable math instruction for ALL*.

Want to learn More ?

A great place to start learning about TODOS: [Standing for Equity and Social Justice](#) by President Diane Kinch, TODOS. For NMCTM, visit the [President's Update](#).

How are you reimbursed?

Recipients will be given the first of the two \$25 stipends upon attending the first workshop on October 28th.

The second stipend of \$25 will be awarded when the recipient attends the follow up training in the Spring/Summer.

Notice of Acceptance

Applicants will be emailed notice of their acceptance or rejection by September 15th - 25th.
